## SUMMARY

Skilled in both Adobe Creative Suite and front-end development languages, with the ability to design clean, modern graphics for print and digital media and develop responsive, user-friendly web pages using HTML and CSS. This blend of design and development expertise offers flexibility to meet diverse client needs. Dedicated to continuous learning, collaboration, and professional growth.

## SKILLS

### Graphic Design

- Photoshop
- Illustrator
- InDesign
- Adobe Express

### Front-End Web Development

- HTML5
- CSS
- JavaScript
- Git and GitHub

### Other

- Responsive Design
- Color Theory
- Typography

## EDUCATION/EXPERIENCE

### Orange Technical College - South Campus

Orlando, FL

Digital Media/Multimedia Design

2022-23

- **Event Flyer Design:** Designed a promotional flyer for Orange Technical College's Spirit Week using Adobe Illustrator, applying typography and color theory to create a cohesive and eye-catching layout that boosted event awareness and student participation.
- **Board Game Redesign:** Transformed a traditional board game into a streamlined card game format, enhancing accessibility and reducing setup time by 50%. Updated all graphic design elements for consistency and produced a high-quality physical prototype that improved user engagement and playability.
- **Layout Design Projects:** Created multi-page layouts in Adobe InDesign for projects including game instructions and a digital magazine, improving readability, visual hierarchy, and audience retention through strategic use of typography and composition.
- **Custom Print Design:** Produced custom graphics in Adobe Illustrator and prepared them for print production, including cards and sublimated T-shirts, ensuring accurate color reproduction and professional-quality outputs that increased product appeal and client satisfaction.

### Codecademy

Orlando, FL

Front-End Engineer Career Path

2024-25

- **Responsive Website Development:** Built and styled responsive website layouts using HTML and CSS, applying best practices in layout design, accessibility, and mobile-first development to ensure seamless performance across devices.
- **Interactive Portfolio Site:** Developed a personal portfolio website incorporating some JavaScript-based interactivity to enhance navigation and user engagement, effectively showcasing design and coding projects.

- **Version Control & Deployment:** Managed and deployed all projects through GitHub, demonstrating version control proficiency, project organization, and commitment to clean, maintainable code.

## SOFT SKILLS

---

- |                       |                                 |
|-----------------------|---------------------------------|
| ● Attention to detail | ● Strong work-ethic             |
| ● Organized           | ● Adaptable and growth-oriented |
| ● Collaborative       |                                 |
