SUMMARY

Skilled in the fundamentals of both Adobe Creative Suite and front-end development languages, with the ability to design clean, modern graphics for both print and digital media, as well as develop responsive, user-friendly web pages using HTML and CSS. This unique combination of design and development skills provides flexibility to support a wide range of client needs. Committed to continuous learning, professional growth, and contributing to a collaborative team environment to support both company success and personal career development.

SKILLS

Graphic Design

- Photoshop
- Illustrator
- InDesign
- Adobe Express

Front-End Web Development

- HTML5
- CSS
- JavaScript (Beginner)
- Git and GitHub (Beginner)

Other

- Responsive Design
- Color Theory
- Typography

EDUCATION

Orange Technical College - South Campus

Orlando, FL

Digital Media/Multimedia Design

2022-23

- Event Flyer Design: Created a promotional flyer for Orange Technical College's Spirit Week using Adobe Illustrator, applying typography and color theory principles to enhance visual appeal.
- Board Game Redesign: Redesigned a board game into a card game format, simplifying gameplay for broader accessibility, updating graphic design elements, and producing a physical prototype.
- Layout Design Projects: Designed multi-page layouts for various projects, from game instructions to a digital magazine, using Adobe InDesign.
- Custom Print Design: Created custom graphics in Adobe Illustrator and prepared them for physical production, including printing cards and sublimating designs onto T-shirts.

Codecademy

Orlando, FL

Front-End Engineer Career Path

2024-25

- Responsive Website Layouts: Built responsive web pages using HTML and CSS, and developed a portfolio incorporating basic JavaScript, with all projects hosted on GitHub.
